# Make GSA Global Supply™ Your Source.

GSA supports military and civilian customers with products and services designed to help users accomplish their missions. Together, the programs described below provide a range of options for satisfying customer requirements.

## Highlights of GSA's Flexible Requisition and Acquisition Methods:

### Requisitioning from GSA

GSA Global Supply procures products that meet the recurring needs of the federal government. Because GSA Global Supply has already procured the most in-demand products on the government's behalf, your order is a simple requisition between agencies. Requisitions, regardless of size, satisfy all Federal Acquisition Regulation (FAR) requirements, including environmental initiatives, trade agreement policies, socioeconomic goals, AbilityOne mandates, and executive orders. Consideration of multiple sources is not required. Standard shipping is included with most orders and "direct delivery" products are clearly identified.

This catalog features some of GSA Global Supply's most popular products. To see the complete offering of approximately 400,000 items, visit [www.GSAGlobalsupply.gsa.gov](http://www.GSAGlobalsupply.gsa.gov).

For additional information about ordering from GSA Global Supply, see page 1 of this publication.

### Special Order Program

If the item you need cannot be found in the GSA Global Supply offering, you can use our Special Order Program (SOP) to obtain those products. Customer agencies can place requisitions for NSN or part-numbered items with GSA Global Supply and be assured we will take all the necessary steps to ensure compliance with all applicable procurement regulations. The SOP option includes a wide variety of products and related services, such as tools and hardware, office products, cleaning supplies and fire equipment. SOP items can be ordered by calling the GSA Global Supply call center at (800) 525-8027 or via FEDSTRIP/MILSTRIP. GSA Global Supply can also assist with placement of SOP orders at a nearby store (visit [www.gsa.gov/globalsupply](http://www.gsa.gov/globalsupply) for more information on GSA Global Supply stores).

### Purchasing from a GSA Contractor

The GSA Multiple Award Schedule (MAS) program enables you to choose from millions of products and services available from thousands of pre-qualified contractors. Though more involved than a requisition, this method of procurement is quicker and easier than open-market procurement. In establishing long-term

government-wide MAS contracts, we simplify purchasing by allowing you to tailor orders to your purchasing requirements and negotiate pricing below our ceiling rates. Issuing a purchase order through the MAS program is recommended for obtaining products not widely requested enough to be included in the GSA Global Supply inventory, and for services necessary for your mission. For detailed descriptions and contractor listings of the below categories, visit [www.gsaelibrary.gsa.gov](http://www.gsaelibrary.gsa.gov).

### Ensuring Re-Use with GSA Personal Property Management

Screening other agencies' excess personal-property inventories is the federal government's priority source of supply. And with today's increased environmental consciousness, reusing excess property is a source of pride. To help you acquire the excess property your agency needs, GSA offers GSAXcess®, which can be accessed through [www.gsa.gov/gsaxcess](http://www.gsa.gov/gsaxcess). GSAXcess is the personal-property reporting tool for the federal government. At GSAXcess, reporting, searching and selecting excess property is convenient and user-friendly.

## Part Number Ordering

Many GSA Global Supply catalogs feature items with National Stock Numbers (NSNs) and others with GSA part numbers. FEDSTRIP/MILSTRIP customers can order GSA part-numbered items by entering "GSA" as the Routing Identifier Code (RIC) and using one of the following Document Identifiers (Doc ID):

- AOB: For domestic shipment; or
- AO2: For overseas shipment

Both NSNs and GSA part-numbered items carry the same customer benefits. All are FAR-compliant and AbilityOne-guaranteed. All can be shipped anywhere on the globe. All are backed by GSA Global Supply customer service.

## DOD EMALL

All GSA Global Supply items appear on the DOD EMALL site. Customers must use AAC/DoDAAC to purchase GSA items.

## GPS with Integrated FRS/GMRS

Combines two-way radio and GPS features to help you communicate with your associates and locate them easily. Using the Rino's unique Position Reporting feature, you can send your exact location to other Rino users in your group, so they can see your precise location on the map page. Because Rino is a standard FRS/GMRS radio, you can use it to communicate with any other conventional FRS/GMRS radio around. The Rino can save up to 500 of your most important locations in memory as waypoints so you can come back to them at another time.

Used with, but not included, boom microphone (NSN 5965-01-518-4488), speaker/earbud (NSN 5965-01-518-4490), charger (NSN 6130-01-518-4491), carrying case (NSN 5895-01-518-4495), windshield mounting bracket (NSN 5820-01-518-4494), power adapter (NSN 6130-01-518-4496).

*The Rino 120 has a built-in city point data base and 8MB of internal memory to load other points of interest data from compatible MapSource products.*

## Uni-Pak Pallet Sleeve

Complete state-of-the-art storage/shipping system is constructed of heavy-duty AAA-fluted configuration fiberboard sleeve, a plastic top, and a plastic bottom pallet (with four-way entrance capability). The sleeve can be locked with bottom pallet and top to create a rigid and secure system, eliminating strapping and stretch wrapping. The rugged and impact-resistant bottom pallet and top are formed from two sheets of high-density polyethylene. Palletized loads (up to 10,000 lbs.) can be stored up to four high. The 40 x 48" bottom pallet and top have nesting capabilities to save space and stack securely. Reusable system is designed for years of service. Sleeves are collapsible and designed to occupy nearly 30% less space than traditional systems.

## Lightstick (Chemlight)

Chemical lights, commonly known as chemlights, are a non-toxic, non-flammable source of light. These lightsticks are good for emergency, safety and signaling uses. They provide safe, effective light without heat, sparks or flame. To activate, a user bends the plastic lightstick, breaking the inner glass vial. Chemicals from the broken glass vial mix with chemicals from the plastic tube to deliver a light-creating chemical reaction. Self-contained, compact, rugged, and waterproof.
